Editorial Themes

The BVAA membership is made up of companies who manufacture, distribute or repair valves and actuators and related products and services. These products and services range across a number of sectors, which is why we do not restrict members to an editorial calendar with specific themes. Instead, we want members to showcase their companies, products, people and expertise in the issue that best fits for them.

Ideas for editorial themes could include (but are not limited to):

- New product or service announcements
- New contracts and partnerships
- Case Studies, Problem Solving
- Acquisitions, mergers or expansion news
- New premises or facilities
- Accreditations, awards
- New appointments, staff changes
- Training and events
- Attendance at Events, Exhibitions, Conferences etc
- Innovation

Editorial Prerogative

Submission of material should not be taken as a guarantee of inclusion. BVAA reserves the right to correct, amend and otherwise edit the material as it sees fit and to suit the circumstances. The editor's decision is final. Editorial is not returned to contributors for final approval. All contributors are referred to the Disclaimer and Copyright notice in the footer of our website here: valveuser.com.
